## Private events at Ariana Museum's "Grand Hall"

### 1) Price:

The cost of privatizing the Grand Hall, and the Museum generally, is **CHF 25'000**.  
This amount includes a CHF 5'000 down payment to cover all administrative costs.

### 2) Features:

#### **Services included:**

- possibility to start a standing event at 6.30pm and a seated event at 7.30pm;
- post-event cleaning;
- surveillance by security staff (security of Museum collections, not guests' safety);
- possibility to visit the permanent and temporary exhibition rooms;
- maximum hours for an event: 16pm-1am (setup, removal and quick moping included).

Please note: setup on the day before the event is not permitted: set up and removal must occur the same day of the event. Where necessary, tables and chairs may be removed the morning after the event. In this case, removal must be completed at **8.30am at the latest** to make space for the morning cleaning staff.

#### *Capacity:*

The Grand Hall can host:

- up to 220 seated persons for a sit-down meal
- (OR) up to 350 standing persons in a cocktail setup
- (OF WHICH) up to 50 persons in the gallery on the Museum's first floor.

Please note that these figures represent the maximum numbers of persons authorized in the premises for security purposes; these figures include not only guests, but also the Museum security staff and any external service providers (catering staff, private security staff, etc.) that usually consist of 20 to 25 persons.

#### **Services not included:**

Catering, furniture, technical production, decoration and the Grand hall floor protection are not provided by the Museum. We therefore invite you to contact the companies mentioned below. These companies are trained and knowledgeable about the Museum's specific procedures.

\*The Grand hall floor protection is only necessary within the limits of the oval-shaped, waxed corten steel area. It requires, at your own choice, the installation of a floor carpet (provided by the Museum) or felt pads under the chairs and heavy pieces of furniture. These operations are generally done by the caterer or technical production.
